### **DETAILED ACTION**

Claims 1-18 are pending in the application. Claims 19-21 have been withdrawn.

#### ***Claim Rejections - 35 USC § 102***

Claims 1-3, 7-14 and 16-18 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 6,560,940 B2 to Mueller as disclosing a force resisting device and frame member.

#### ***Claim Rejections - 35 USC § 103***

Claims 4-6 and 15 rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 6,560,940 B2 to Mueller as disclosing a force resisting device and active element.

#### ***Response to Arguments***

Applicant's arguments filed 4/21/04 have been fully considered but they are not persuasive. Applicant argues that the invention of Mueller does not operate in the same manner as the instant application. However, Mueller discloses the basic structural claim limitations as in the instant application. Applicant argues the functional language used in the claims is different than that of Mueller. Applicant should note that examination of the instant application is drawn to the structure of the claims and not the functional language. Accordingly, Mueller meets the limitations of the instant application as claimed.

**Conclusion**

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
